

DO THE RIGHT THING

I hear a voice inside me sing
Do the right thing, do the right thing
When there's a choice to make, I hear it ring
Do the right thing, do the right thing
It's not so simple or cut and dry
Do the right thing, do the right thing
But when I hear that voice, I've got to try
Do the right thing, do the right thing

Cause I'm making choices every day
In every situation, which role I'm gonna play
Even when there's no one watching, and no one else can see
I'm the only one who's got to live with me

So listen up! you, too
Have a voice inside of you
So turn it up! you'll hear
It's whisperin' inside your ear... listen!

We can make a better world if we try
Take a stand instead of standing by, and say
I can make a difference, be a righteous person, too
And you can make a difference if you listen to the voice inside of you

I hear a voice inside me sing
Do the right thing, do the right thing
When there's a choice to make, I hear it ring
Do the right thing, do the right thing
It's not so simple or cut and dry
Do the right thing, do the right thing
But when I hear that voice, I've got to try
Do the right thing, do the right thing

Do the right thing, do the right thing
Do the right thing, do the right thing
